## **FOR IMMEDIATE RELEASE**

### **The American Boiler Manufacturers Association Creates Hydronics Product Group**

**Vienna, VA – February 6, 2020** – Last week, the ABMA Board of Directors created a Hydronics Product Group during their meeting at the 2020 Annual Meeting at the Rancho Bernardo Inn in San Diego, CA. The Hydronics Product Group will be composed of manufacturers of hydronics equipment and components that contribute to low pressure steam and hot water heating as stated in Section IV of the ASME code.

The Hydronics Product Group will focus in the following areas:

- Forum to discuss trends and address issues impacting the Hydronics sector.
- Watchdog for hydronic boiler centric codes & standards bodies, including ASME and various air quality districts, to bring awareness, information and influence for the hydronics companies.
- Voice for the hydronics sector to act on issues to protect and positively impact companies.
- Respected "Voice of Authority" in the hydronics sector where deliberation and recommendations on common product applications issues can be heard, addressed and communicated.
- Place for thought leadership for the hydronics sector.
- Entity to identify and create needed education for all industry participants.
- Ability to contribute to and participate in boiler centric trade shows such as BOILER2021 that feature hydronics.

ABMA Hydronics Product Group is intended to complement programs and activities these companies already receive from other organizations.

### **About ABMA**

Since our founding in 1888, the American Boiler Manufacturers Association (ABMA) has advocated for the safe production and operation of boilers, facilitated advances in energy efficiency, and provided solutions for our member companies. Throughout our history, the boiler industry and our member base have relied on the ABMA to lead the industry as it tackles challenges and embraces opportunities in our constantly evolving sector. Through participation with ABMA, our members are better informed, connected, and positioned to thrive in today's global boiler industry.
